This continuing education activity is provided by  **VINDICO**
medical education®

This activity is supported by an educational grant from Genentech, a member of the Roche Group.

OVERVIEW

Join us for a CE case-based seminar where experts in the field will discuss selecting appropriate treatment regimens for patients with neovascular age-related macular degeneration (nAMD) and diabetic macular edema (DME) based upon clinical presentation, patient preference, and the safety, efficacy, and durability of FDA-approved therapies.

LEARNING OBJECTIVES

Upon successful completion of this activity, participants should be better able to:

- Select the most appropriate treatment regimen for patients with nAMD based upon clinical presentation, demonstrated efficacy, safety, durability, and patient preferences.
- Incorporate the use of evidence-based criteria and key decision-making when considering changing treatment regimens in patients with DME.

TARGET AUDIENCE

The intended audience for this activity is ophthalmologists and other healthcare professionals involved in the management of patients with nAMD and DME.

AGENDA

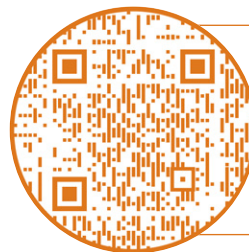

11:55 AM Introduction and Pretest
Andrew A. Moshfeghi, MD, MBA

**12:00 PM nAMD Management:
Inquiring Minds Want to Know**
Andrew A. Moshfeghi, MD, MBA
