This continuing education activity is provided by  **VINDICO**  
medical education®

This activity is supported by an educational grant from Genentech, a member of the Roche Group.

## OVERVIEW

Don't miss this CME lunch where Drs. Rishi P. Singh, Jorge A. Fortun, and Aleksandra V. Rachitskaya will discuss therapies and protocols for neovascular age-related macular degeneration (nAMD) and diabetic macular edema (DME) that extend dosing intervals, providing durable visual gains and greater control of fluid and macular leakage.

## LEARNING OBJECTIVES

Upon successful completion of this activity, participants should be better able to:

- Incorporate the use of therapies in the treatment of nAMD that extend dosing intervals and offer greater fluid control.
- Select therapies for DME that provide durable visual gains and reduce macular leakage.

## TARGET AUDIENCE

The intended audience for this activity is retina specialists and other healthcare professionals involved in the management of patients with nAMD and DME.
