This continuing education activity is provided by

This activity is supported by an educational grant from Bausch + Lomb.

OVERVIEW

Are you treating patients with uveitic macular edema (UME)? During this CME symposium, experts will discuss corticosteroid delivery systems based on their route of administration, dosage and frequency, as well as benefits and limitations in the treatment of patients with UME.

LEARNING OBJECTIVES

Upon successful completion of this activity, participants should be better able to:

- Differentiate corticosteroid delivery systems based on their route of administration, dosage and frequency, as well as benefits and limitations in the treatment of patients with UME.
- Appraise the use of sustained corticosteroid delivery systems based on evidence of their safety and efficacy in the treatment of patients with UME.

TARGET AUDIENCE

The intended audience for this activity is retina specialists, ophthalmologists, and other healthcare professionals involved in the management of patients with UME.

AGENDA

11:15 AM Introduction and Pretest

11:20 AM Deep Dive Into Corticosteroid Delivery Systems: New Insights

11:35 AM Deep Dive Into the Data: Targeting UME Treatment Through Sustained Drug Delivery

11:50 AM Case Presentation: Treating UME

12:00 PM Posttest and Question & Answer

12:15 PM Conclusion
